Sprint 1.0. 10 July, 2017
Document Revision v1.0 8 July, 2017

Team 5
CMPS115-01
Dan Suh, Hyejin Lee, Minkyu Yun, Seungchyul Shin, Sunjae Lee

Action to Stop Doing:

Our team should stop allowing daily scrum to go over 15 minutes, because the meeting is less effective that way.
Our team should stop scrum meeting everyday, because it's too frequent to do task.
Our team should stop meeting at saturday 8:45 am, because only Dan can wake up that early.

Actions to Start Doing:

Our team should start using trello more often since we forgot to use trello in many of our meetings.
Our team should start meet up more often besides the scrum meeting since it could be more effective when coding together or pair programming.

Actions to Keep Doing:

Our team should keep up with doing good estimation of work loads since our first estimation on the sprint plan document was very accurate.
